Mayor Vajdos explained that this engagement with Brown and Hoffmeister is to avoid a conflict of interest in the current dealings and issues ensuing with the Village Fire Department and the Village Fire Department Board. The current City Attorney, Loren Smith from Olson and Olson, is also the attorney for the City of Bunker Hill, who voted to terminate the Fire Chief. They are also the legal representative for five of the six Memorial Villages. The votes and actions ultimately decided by the other villages caused the termination of the Fire Chief, and the City was not in agreement with that stance. Council Bass made a motion to execute the Engagement Letter with Brown and Hoffmeister, and Council Member Carpenter seconded the motion. Motion carried 3-0.

**OLD BUSINESS**

**11. UPDATE, DISCUSSION AND POSSIBLE DIRECTION CONCERNING: Activities of the Village Fire Department Commissioners Meeting on January 25, 2023, and Any Special Meetings That May Have Occurred since January 25, 2023. (Mayor Pro-Tem Carpenter / Council Member Bothe)**

Council Member Carpenter introduced Interim Fire Chief Howard Miller. Interim Fire Chief Miller then briefly synopsisized his career and experience. Interim Chief Miller also went into the details regarding his previously held position with the Village Fire Department as Battalion Chief and how and why he would not be able to serve in both roles. Council Member Carpenter then briefed the Council on the staffing changes and the now two open positions at the Fire Department.

Council Member Carpenter continued the discussion by briefing the Council on repairs or replacement to the roof that was improperly installed and is part of the existing structure for the Fire Department building. In addition, a replacement needs to happen for the annex building roof where the Fire Department dispatch area is also. The discussion continued with additional mentions of a budget amendment for \$350,000-\$380,000 that would account for

a miscalculation in salaries and a request to hire an additional dispatcher.

The Village Fire Department Board is executing a selection committee for potential Fire Chief candidates and would like Council Member Carpenter to serve on that committee. Council Member Carpenter then asked the Council if they approved his service on the selection committee, and Council was in agreement with this decision.

### **NEW BUSINESS**

- 12. Mayor Vajdos presented the review of the Interlocal Agreement with the City of Spring Valley Village and the City of Hilshire Village with concerns regarding Section 2, Paragraph B, specific to the use of police vehicles and vehicle maintenance and service. City Attorney Loren Smith recommended that either Acting City Administrator Zachary Meadows reach out to City Administrator of Hilshire Village, Cassie Stephens or that he would speak to their City Attorney Scott Bounds. Based on this discussion, Council Member Dominy and Council Member Bass requested that there be additional data pulled on the average maintenance costs over a five-year period and presented to City Council before any discussions with Hilshire Village.

- 14. UPDATE, DISCUSSION AND POSSIBLE DIRECTION CONCERNING:** Briefing by City Staff:

1. Status of Cedarspur, Burkhart, Winningham (East of Voss)

Director of Public Works Kristina Watson informed the Council that this project is estimated to be complete at the end of April. MetroCity has started concrete removal, sub-grade forms, and pouring concrete in the last two phases of this project. At the beginning of May, they will begin final walk-throughs and punch lists.

2. Status of Cedarspur (West of Bingle) and Burkhart (East of Bingle)

Acting City Administrator / Community Development Director Zachary Meadows informed the Council that City Administrator Julie Robinson was reviewing the front-end bid documents. Public Works Director Kristina Watson and he will review the documents to get the project out to bid soon.

3. Status of Brighton Place Utilities and Pavement Improvements Project

Director of Public Works Kristina Watson informed the Council that City staff met with the engineers from CobbFendley to discuss the preliminary engineering report. She advised that items from that meeting would be addressed and brought to the Council during the Capital Improvements Plan Workshop in March. Currently, CobbFendley is at the 60% design phase and will wait for additional direction from the Council until after the March meeting.

4. Status of Bingle Road Road Diet

Ms. Watson advised that there is currently no update or change from the last update that was provided to the Council.

5. Update on Activities of Board of Adjustment

Mr. Meadows advised that there was a Board of Adjustments meeting on February 22, 2023, two items were discussed during the meeting, both of which did not gain approval. The first item was for a carport addition on Modiste Street; the second was an expansion of a non-conforming structure detached garage on Cedarspur Street.

Council Member Dominy asked about the culmination of construction on 1213 Tamy Lane and any renovation plans for Tamy Lane near the pedestrian bridge. Acting City Administration stated that he was aware of conversations between City Administrator Julie Robinson and Public Works Director Kristin Watson. Ms. Robinson was looking to review this issue during the Capital Improvement Plan Workshop in March. Council Member Dominy stated he would like to see a plan for the beautification of Tamy Lane. Mayor Vajdos then recommended “Grasscrete” for that area as the use of which was successfully done near the Pech Road pedestrian bridge.

In addition to the bridge improvements on Tamy Lane, Mr. Meadows advised the Council that the owner of 1213 Tamy Lane and 1214 Campbell Road had a Board of Adjustment application pending for the fence adjacent to Campbell Road, this was originally denied by the Board of Adjustments, however the applicant has filed for reconsideration of the request.

Mayor Vajdos also asked that about a missing streetlight on Cedarspur Drive. Acting City Administrator Zachary Meadows advised that Public Works Director, Kristina Watson, was actively working on this with Verizon, as its removal was related to the cell node agreement.

Council Member Bass asked about the work that was approved with the Right-of-Way off Hildale Street, as he believes that the work that was completed was not to the satisfaction of what was agreed upon. Mr. Meadows advised that he and Ms. Watson would look into it to be rectified.

**16. ADJOURNMENT**

Council Member Dominy made a motion to adjourn the meeting at 8:43 p.m., and Council Member Carpenter seconded the motion. Motion carried 3-0.

**Spring Valley Village City Council  
Agenda Item Data Sheet**

**MEETING DATE:** March 28, 2023

**TOPIC:** **DISCUSSION AND POSSIBLE DIRECTION CONCERNING:**  
Review and Possible Changes to Interlocal Agreement by and between City of Spring Valley Village and City of Hilshire Village for the Provision of Police and Municipal Court Services.

**BACKGROUND:** Following the direction given by City Council during the February 28, 2023 City Council Meeting, staff has put together the following breakdown of maintenance costs over the last five years in regards to police department vehicles.

| <b>Police Vehicle Maintenance</b> |                    |
|-----------------------------------|--------------------|
| 2017-2018                         | \$38,481.77        |
| 2018-2019                         | \$40,552.96        |
| 2019-2020                         | \$49,046.68        |
| 2020-2021                         | \$64,446.58        |
| 2021-2022                         | \$59,340.99        |
| <b>Annual Average</b>             | <b>\$50,377.00</b> |

In addition to the maintenance costs above, from January 2018 to February 2023, the police department has averaged 9.73% of their calls for service within the Hilshire Village.

The current Interlocal Agreement is based on 16.1% of the police department budget not including Capital Improvements. The 16.1% is derived from City of Hilshire Village's percent of total land area. Current Police Department budget excluding Capital improvements for the City of Spring Valley Village is \$3,781,624; and the Police Department's Capital Improvement budget consists of three line items totaling \$331,291.

Upon review of the budget it appears that vehicle maintenance is being factored into the City of Hilshire Village contribution, the amount being excluded is the capital improvement line items. The City Council could request that the full police department budget including capital expenses (totaling \$4,112,915 for current budget) be factored into the 16.1% contribution, which under current budget numbers would be an additional \$53,338.

Staff requests direction on how to proceed with any changes Council would be looking to implement to the Interlocal Agreement with City of Hilshire Village.

**RECOMMENDATION:** Staff requests direction from the Council concerning possible changes to the Interlocal Agreement by and between City of Spring Valley Village and City of Hilshire for Police and Municipal Court services.

# SPRING VALLEY VILLAGE

March 17, 2023

The Honorable Mayor, City Council  
Members, and Citizens of the  
City of Spring Valley Village, Texas:

The Finance Department is pleased to submit the Annual Comprehensive Financial Report for the City of Spring Valley Village, Texas (the “City”) for the fiscal year (FY) ended September 30, 2022. This report is published to provide the City Council, City staff, our citizens, our bondholders, and other interested parties with detailed information concerning the financial condition and activities of the City government. Management assumes responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures.

We believe the data presented is accurate in all material respects and is organized in a manner designed to fairly present the financial position and results of operations of the City as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the City’s financial activities have been included.

Belt Harris Pechacek, LLLP, Certified Public Accountants, have issued an unmodified (“clean”) opinion on the City’s financial statements for the year ended September 30, 2022. The independent auditors’ report is located at the front of the financial section of this report.

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditors’ report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

## **PROFILE OF THE GOVERNMENT**

The City was incorporated under the laws of State of Texas (the “State”) in 1955. The City operates as a “General Law” City, which provides for a “Mayor-Council” form of government.

The City provides the following municipal services: public safety; highways and streets; sanitation, water, and sewer services; and general administration.

The City is an independent political subdivision of the State governed by an elected council and a mayor and is considered a primary government. Spring Valley Village is one of the six Memorial Villages and is located ten miles west of downtown Houston. As of September 30, 2022, the City has a land area of 1.6 square miles and an estimated population of approximately 4,204. The City is empowered to levy a property tax on both real and personal property located within its boundaries.

## **ACCOUNTING SYSTEM AND BUDGETARY CONTROL**

The City’s accounting records for general governmental operations are maintained on a modified accrual basis, with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the City’s utilities and other proprietary activities are maintained on the accrual basis.

City Ordinance establishes the fiscal year as October 1 through September 30. City Ordinance also requires the City Administrator to submit a proposed budget and accompanying budget message to the Council each year. The proposed budget is reviewed by the Council and is formally adopted by the passage of a budget ordinance. The City Administrator is required to inform the Council of any revisions of expenditures for any fund or department revisions which must be approved by the Council.

Budgetary control has been established at the department level. Monthly financial reports for Council are produced showing budget and actual revenues and expenditures. Individual line items are reviewed and analyzed for budgetary compliance.

## **ECONOMIC CONDITION AND OUTLOOK**

The City encompasses a 1.6 square mile area located along the north side of Interstate 10, approximately ten miles west of downtown Houston, Texas. The City has one of the most desired school districts in the Houston metropolitan area. The City is an integral part of the Houston metropolitan area and is completely surrounded by the cities of Houston, Hilshire Village, Hedwig Village, and Hunters Creek Village. The City is right next to the largest and busiest freeway in the nation. The City is primarily a residential area whose approximately 4,204 inhabitants are employed throughout the Houston urban area.

There is very little vacant and/or undeveloped land in the City, so construction generally involves rebuilding and remodeling. The City continues to enjoy a stable outlook with property taxable value and its property taxable value reached over \$1 billion in the FY 2017 and doubled from ten years ago. Among reasons for this strength is the City's convenient proximity to the Galleria, Energy Corridor, downtown Houston, the Texas Medical Center, as well as the ever-evolving Memorial area.

The City's tax rate is among the lowest in the Houston area and is anticipated to remain relatively stable into the future due to residential property values and a new medical building completed in 2022.

The City's relative stability is the result of a desire for suburban families to live closer to work. The City has its own Police Department to maintain the low crime rate and its hometown appeal has attracted many of these families. These factors have contributed, and continue to contribute, to the relative stability of property values in the City.

The value of real property in the City is expected to stay strong in 2023. Expenditures are expected to remain steady with considerations for the continued competitive pressure on personnel costs and potential increases in the cost of employee health benefits.

The City approved a one cent lower property tax rate for tax year 2022, fiscal year 2023.

## **LONG-TERM FINANCIAL PLANNING**

Capital improvement projects are funded with general governmental revenues and proceeds of general obligation and certificates of obligation debt issues. The City annually updates a five-year Capital Improvement Plan (the "Plan") and regularly prepares short-term improvement plans for water, wastewater, drainage, municipal facilities, and parks. The Plan is prepared by staff and presented to the City Council for review and acceptance. The Plan requires funding sources to be identified for each project.

In FY2019, the Council's policy on capital projects funding changed from pay-as-you-go with cash to the use of certificate of obligation bonds in order to undertake a greater number of capital projects. A portion of general fund revenues is allocated to the Debt Service Fund each year to cover bond payments, and a portion is allocated to the Capital Improvements Fund each year to fund those capital projects that will be funded by cash.

## **Major Initiatives**

FY 2022 was a year of accomplishments for the City of Spring Valley Village. The list below highlights some of the significant City activities:

- Water Well #2 was completed and online as of May 2022.
- The Loeser, Traweek, Lone Star paving and utility improvement project was completed in June 2022.
- Ground Storage Tank #2 was replaced and put back online in August 2022.
- The Winningham, Cedarspur, and Burkhart (All East of Voss) paving and utility improvement project started in June 2022 and will be completed in the 2<sup>nd</sup> quarter of 2023.
- The Cedarspur (West of Bingle), Burkhart (East of Bingle), and Burkhart Road paving and utility improvement project will go out for bid in the first half of 2023. Construction will begin in 2023 and be completed in 2024.
- The Brighton Place paving and utility improvement project will complete the design phase in 2023 and will go out for bid in late 2023, early 2024.

## **Annual Budget**

The City maintains budgetary controls to ensure compliance with legal provisions embodied in the annual budget approved by the City Council. Activities of the General Fund, Capital Replacement Fund, Utility Fund, and Debt Service Fund are included in the annual operating budget. The Capital Improvement Plan is approved each year by the City Council and funded through a separate Capital Projects Fund, and is included in the annual budget. The level of budgetary control (*i.e.*, the level at which expenditures cannot legally exceed the appropriated amount) is established at the department level within an individual fund. As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

## **Financial Information**

The City's management team is responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable assurance that employees, in the normal course of business, will detect and/or prevent errors or irregularities that could be material to the financial statements.

## **Independent Audit**

Sections 103.001-103.004 of the Local Government Code require the City to have an annual audit of its financial records and accounts. The independent auditors' report, prepared by Belt Harris Pechacek, LLLP, is presented as the first component of the financial section of this report.

## **Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Spring Valley Village for its annual comprehensive financial report for the fiscal year ending September 30, 2021. This was the eighth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

### **ACKNOWLEDGEMENTS**

The preparation of this Annual Comprehensive Financial Report would not have been possible without the efficient and dedicated service of the entire staff of the Finance Department. Appreciation is expressed to all City employees throughout the organization, especially to those who were instrumental in the successful completion of this report. Additionally, I would also like to thank the Mayor, the Council, and the City Administrator for their support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

## ***INDEPENDENT AUDITORS' REPORT***

To the Honorable Mayor and  
City Council Members of the  
City of Spring Valley Village, Texas:

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Spring Valley Village, Texas (the "City"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the City as of September 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibility of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditors' Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedules of changes in net pension and total other postemployment benefits liability and related ratios, and schedule of contributions, identified as Required Supplementary Information on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The schedule listed as supplementary information on the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

***MANAGEMENT'S DISCUSSION  
AND ANALYSIS***

# CITY OF SPRING VALLEY VILLAGE, TEXAS

## MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended September 30, 2022

The purpose of the Management's Discussion and Analysis (MD&A) is to give the readers an objective and easily readable analysis of the financial activities of the City of Spring Valley Village, Texas (the "City") for the year ended September 30, 2022. The analysis is based on currently known facts, decisions, or economic conditions. It presents short and long-term analyses of the City's activities, compares current year results with those of the prior year, and discusses the positive and negative aspects of that comparison. Please read the MD&A in conjunction with the City's financial statements, which follow this section.

### THE STRUCTURE OF OUR ANNUAL REPORT

The City's basic financial statements include (1) government-wide financial statements, (2) individual fund financial statements, and (3) notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

### GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information for the City as a whole. These statements include transactions and balances relating to all assets, including infrastructure capital assets. These statements are designed to provide information about cost of services, operating results, and financial position of the City as an economic entity. The Statement of Net Position and the Statement of Activities report information on the City's activities that enable the reader to understand the financial condition of the City. These statements are prepared using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account, even if cash has not yet changed hands.

The Statement of Net Position presents information on all of the City's assets, liabilities, and deferred outflows/inflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Other nonfinancial factors, such as the City's property tax base and the condition of the City's infrastructure, need to be considered in order to assess the overall health of the City.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows – the accrual method rather than modified accrual that is used in the fund level statements.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

### **For the Year Ended September 30, 2022**

The Statement of Net Position and the Statement of Activities divide the City's financials into two classes of activities:

1. *Governmental Activities* – Most of the City's basic services are reported here, which include general government, public safety, and public works. Sales taxes, property taxes, franchise fees, and other revenue finance most of these activities.
2. *Business-Type Activities* – Services involving a fee for those services are reported here. These services include the City's water and wastewater.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate corporation, the Spring Valley Legacy Fund, Inc., for which the City is financially accountable. Although legally separate, this component unit functions for all practical purposes as department of the City and, therefore, is included as an integral part of the primary government.

The government-wide financial statements can be found after the MD&A.

## **FUND FINANCIAL STATEMENTS**

Funds may be considered as operating companies of the parent corporation, which is the City. They are usually segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal reporting requirements. The two categories of City funds are governmental and proprietary.

### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains five governmental funds. Information is presented in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, the capital improvements fund, and the debt service fund which are considered to be major funds for reporting purposes. The asset forfeiture fund and legacy fund are nonmajor funds but the City has elected to present them as major funds for reporting purposes.

The City adopts annual appropriated budgets for its general fund and debt service fund. Budgetary comparison schedules have been provided for the general fund and debt service fund to demonstrate compliance with these budgets.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2022**

**Proprietary Funds**

The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water and wastewater services. The proprietary fund financial statements provide separate information for the water distribution and wastewater collection/treatment operations. The basic proprietary fund financial statements can be found in the basic financial statements of this report.

The City also uses an Internal Service Fund to account for its equipment replacement program. The capital replacement fund has been included within governmental activities in the governmental-wide financial statements.

**Notes to Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are the last section of the basic financial statements.

**Other Information**

In addition to basic financial statements, MD&A, and accompanying notes, this report also presents certain Required Supplementary Information (RSI). The RSI includes a budgetary comparison schedule for the general fund and schedules of changes in net pension and other postemployment benefits liability and related ratios and a schedule of contributions for the Texas Municipal Retirement System. RSI can be found after the notes to the basic financial statements.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. For the City, assets and deferred outflows exceed liabilities and deferred inflows by \$48,359,847 as of September 30, 2022. The largest portion of the City's net position (72%) reflects its investment in capital assets (e.g., land and City hall, as well as the public works facilities). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

A portion of the City's net position, \$4,392,818, represents resources restricted to a specific purpose. The balance of unrestricted net position, \$9,010,075, may be used to meet the City's ongoing obligation to citizens and creditors. The City's total net position increased by \$1,096,245. Total assets decreased \$390,667 with an increase of net capital assets of \$452,864 and a decrease in current and other assets of \$843,531 which was primarily due to funds spent on capital asset additions. Total liabilities decreased \$2,021,393 with a decrease in long-term liabilities of \$1,597,735 and a decrease in other liabilities of \$423,658. There was a decrease in long-term liabilities due mainly to principal debt payments. The decrease in other liabilities was primarily due to a decrease in payables related to capital improvements. Deferred outflows decreased \$53,272 primarily due to a decrease in deferred outflows from the differences between expected and actual economic experience related to the pension liability. Deferred inflows increased \$481,209 from prior year due mainly to the increase in the differences between projected and actual investment earnings related to the pension liability.

## ***MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)***

### **For the Year Ended September 30, 2022**

Revenues for governmental activities increased \$627,645 or 6%. Sales tax revenue increased \$150,121 or 9% due to an increase in taxable sales within the City. Interest revenue increased \$142,208 or 638% due to increases in invested funds and interest rates. Total governmental expenditures increased \$11,604 or less than 1%.

Revenues for business-type activities increased \$526,522 or 18% from the prior year primarily due to the increase in water and sewer revenue due to customer consumption and an increase in rates. Business-type expenses increased by \$635,770 or 23% mainly due to an increase in groundwater charges and maintenance costs.

### **FINANCIAL ANALYSIS OF THE CITY'S FUNDS**

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

**Governmental Funds** – The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the year.

The City's governmental funds reflect a combined fund balance of \$20,782,213. At the end of the current year, \$6,422,522 was unassigned, \$1,048,965 was assigned for capital outlay of equipment and capital improvements, and \$2,607,359 was assigned for 120 days' operating reserve. Total restricted fund balance includes \$10,323,220 for capital projects and \$378,086 for other various purposes, and \$2,061 was nonspendable for prepaid items.

The general fund is the chief operating fund of the City. At the end of the current year, unassigned fund balance of the general fund was \$6,422,522, while total fund balance reached \$9,668,504. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately nine months of the general fund's expenditures. The fund balance for the general fund demonstrated an overall increase of \$1,057,798. This increase includes excess revenues over expenditures of \$2,404,520 and transfers out to other funds of \$1,348,085.

The City's debt service fund had a fund balance of \$3,242, which was a decrease of \$13,834 due to debt service costs in excess of property tax collections.

Overall, there was a decrease of \$2,087,251 in fund balance for the capital improvements fund primarily due to ongoing construction. The fund balance was \$11,012,918 which is restricted or assigned to capital outlay and projects.

The asset forfeiture fund had a fund balance of \$19,054, which was unchanged from prior year.

The legacy fund had a fund balance of \$78,495, which was an increase of \$24,644 primarily due to an increase in donations received.

**Proprietary Funds** – The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

### **GENERAL FUND BUDGETARY HIGHLIGHTS**

The City had planned an increase of \$640,066 in the general fund fund balance, but actually realized an increase of \$1,057,798. The activity resulted in a positive budget variance of \$417,732.

## ***MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)***

### **For the Year Ended September 30, 2022**

Actual general fund revenues exceeded budgeted revenues by \$44,433 during the year. This positive revenue budget variance is mostly due to fines and forfeitures revenues that were slightly higher than originally estimated.

Actual general fund expenditures were under the final budgeted expenditures by \$373,236. This positive expenditure budget variance is primarily due to positive variances of \$107,823 and \$105,652 for general government and the police department, respectively. These positive variances are a result of incurring less costs for general government and public safety than expected.

#### **CAPITAL ASSETS**

At the end of the year, the City's had invested \$52,450,396 in capital assets and infrastructure (net of accumulated depreciation). This represents an increase of \$459,590 from the prior year.

Major capital asset events during the year included the following:

- Construction of ground storage tank #2 for \$707,498
- 4 vehicles for the police department for \$298,236
- Continued pavement and utility improvement at Loeser, Trawek, and Lonestar for \$1,800,770
- Pavement and utility improvement at Cedarspur, Burkhart, and Winningham for \$447,670

More detailed information about the City's capital assets is presented in note III. C. to the financial statements.

#### **LONG-TERM DEBT**

At the end of the current year, the City had total long-term debt outstanding of \$27,025,000. Of this amount, \$9,735,000 was general obligation bonds, \$13,680,000 was certificates of obligation debt, and \$3,610,000 was revenue bond debt.

More detailed information about the City's long-term liabilities is presented in note III. D. to the financial statements.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The property tax rate for the 2022 tax year (fiscal year 2023) was \$0.405 per \$100 of property valuation representing a one cent reduction in the tax rate. The total budget for general fund expenditures was \$9.9 million.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,**  
**AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE**  
**STATEMENT OF ACTIVITIES**  
**For the Year Ended September 30, 2022**

Amounts reported for governmental activities in the Statement of Activities are different because:

|                                                        |                |
|--------------------------------------------------------|----------------|
| Net change in fund balances - total governmental funds | \$ (1,018,643) |
|--------------------------------------------------------|----------------|

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

|                            |             |
|----------------------------|-------------|
| Capital asset acquisitions | 2,821,557   |
| Depreciation expense       | (2,361,967) |

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

|                                                    |       |

| Net change in unavailable revenue - property taxes | (139) |
|----------------------------------------------------|-------|

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. These amounts are the effect of these differences in the treatment of long-term debt and related items.

|                          |           |
|--------------------------|-----------|
| Accrued interest expense | 5,150     |
| Premium on debt          | 46,415    |
| Principal payment        | 1,180,000 |

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

|                              |           |

| Compensated absences         | 80,058    |

| Deferred inflows - pensions  | (439,927) |
| Deferred inflows - OPEB      | 3,438     |

The capital replacement fund is used by management to charge the costs of providing various services and benefits to individual funds. The net revenue of certain activities of the internal service fund is reported with governmental activities.

**For the Year Ended September 30, 2022**

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The City of Spring Valley Village, Texas (the “City”) was incorporated under the laws of the State of Texas (the “State”) in 1955. The City operates as a “General Law” city, which provides for a “Mayor-Council” form of government.

The City provides the following services: public safety; parks and streets; sanitation, water, and sewer services; and general administration.

The City is an independent political subdivision of the State governed by an elected council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the City’s financial reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the City’s financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City’s financial reporting entity status is that of a primary government are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Additionally, prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

**Blended Component Unit**

**Spring Valley Legacy Fund, Inc.**

The Spring Valley Legacy Fund, Inc. (the “Corporation”) has been included in the reporting entity as a blended component unit. The Corporation was established to allow the City to receive private and corporate donations to be used to benefit the Spring Valley Police Department. The Board of Directors consists of six members, all members of the City Council, for terms of office coinciding with their respective terms of office with the City, plus one appointed individual.

The component unit is included in the City’s reporting entity because of the significance of its operational or financial relationships with the City. The City appoints a majority of the Corporation’s Board and is either able to impose its will on it or a financial benefit/burden exists.

Complete financial statements of the Corporation can be obtained directly from administrative offices of the City.

## NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended September 30, 2022

### B. Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all activities of the primary government. *Governmental activities*, which are normally supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

### C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and the capital replacement fund, while business-type activities incorporate data from the City's enterprise fund. Separate financial statements are provided for governmental and proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the City's water and wastewater, and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

### D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the City's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column.

The City reports the following governmental funds:

The *general fund* is used to account for all financial transactions not properly includable in other funds. The principal sources of revenues include local property taxes, sales taxes, franchise fees, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, public safety, and public works. The general fund is always considered a major fund for reporting purposes.

The *debt service fund* is used to account for the payment of interest and principal on all long-term debt of the City. The primary source of revenue for debt service is local property taxes. The debt service fund is considered a major fund for reporting purposes.

The *capital improvements fund* is used to account for the expenditures related to capital projects through resources accumulated from various internal transfers and bond financing. The capital improvements fund is considered a major fund for reporting purposes.

The *special revenue funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The asset forfeiture fund holds monies seized by the police department to be used for public safety and security. The City has elected to report the asset forfeiture fund as a major fund for reporting purposes. The legacy fund is used solely to benefit the Spring Valley Police Department. The primary source of revenue for the legacy fund is from private and corporate donations. The City has elected to report the legacy fund as a major fund for reporting purposes.

## NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended September 30, 2022

The City reports the following enterprise fund:

The *enterprise fund* is used to account for the operations that provide water and wastewater collection, and wastewater treatment. The services are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis will be financed or recovered primarily through user charges. The enterprise fund is considered a major fund for reporting purposes.

Additionally, the City reports the following fund type:

The *Internal Service* fund is used to account for services provided to other departments or agencies of the primary government, or to other governments, on a cost reimbursement basis. The capital replacement fund is used to account for vehicle and equipment replacement.

During the course of operations, the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise fund) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

### E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide and proprietary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

# **CITY OF SPRING VALLEY VILLAGE, TEXAS**

## ***NOTES TO FINANCIAL STATEMENTS (Continued)***

**For the Year Ended September 30, 2022**

For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the City.

### **F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

#### **1. Cash and Cash Equivalents**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, balances in statewide investment pools, and short-term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments with maturity of three months or less when purchased to be cash equivalents.

The City maintains a pooled cash account. Each fund whose monies are deposited in the pooled cash account has equity therein, and interest earned on the investment of these monies is allocated based upon relative equity at the previous month end.

#### **2. Investments**

Investments, except for certain investment pools, commercial paper, money market funds, and investment contracts, are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost. Money market funds, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations and commercial paper that have a remaining maturity of one year or less upon acquisition, are reported at amortized cost. Investments in nonparticipating interest earning contracts, such as certificates of deposit, are reported at cost.

The City has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, Texas Government Code. In summary, the City is authorized to invest in the following:

- Direct obligations of the U.S. Government or U.S. Government agencies
- Fully collateralized certificates of deposit
- Money market mutual funds that meet certain criteria
- Bankers' acceptances
- Statewide investment pools

### 3. Prepaid Items

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred (i.e., the purchase method). Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized.

### 4. Restricted Assets

Certain proceeds of bonds, as well as other resources set aside for specific purposes, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants or contractual agreements or state statute. Restricted assets of the enterprise fund are restricted by bond covenants for repayment of debt.

### 5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of four years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest costs incurred in connection with the construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the City are depreciated using the straight-line method over the following estimated useful years:

| <u>Asset Description</u> | <u>Estimated Useful Life</u> |
|--------------------------|------------------------------|
| Vehicles                 | 5 years                      |
| Furniture and fixtures   | 4-8 years                    |
| Infrastructure           | 40 years                     |
| Machinery and equipment  | 4-8 years                    |
| Water and sewer system   | 20-40 years                  |
| Buildings                | 40 years                     |

### 6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represent a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represent an acquisition of net assets that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time.

# **CITY OF SPRING VALLEY VILLAGE, TEXAS**

## ***NOTES TO FINANCIAL STATEMENTS (Continued)***

### **For the Year Ended September 30, 2022**

Deferred outflows/inflows of resources are amortized as follows:

- Deferred outflows/inflows from pension/other postemployment benefits (OPEB) activities are amortized over the average of the expected service lives of pension/OPEB plan members, except for the net differences between the projected and actual investment earnings on the pension/OPEB plan assets, which are amortized over a period of five years.
- For employer pension/OPEB plan contributions that were made subsequent to the measurement date through the end of the City's fiscal year, the amount is deferred and recognized as a reduction to the net pension/OPEB liability during the measurement period in which the contributions were made.

At the fund level, the City has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

#### **7. Compensated Employee Absences**

The City maintains formal programs for vacation and sick leave. Vacation pay is calculated six months from the date of employment and is cumulative up to 80 hours for employees with less than five years of service and 120 hours for employees with more than five years of service. According to policy, 40 hours may carry over at year end if no exceptions are made. Sick leave is accumulated up to 240 hours but does not vest.

#### **8. Long-Term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The property tax rate is allocated each year between the general and debt service funds. The full amount estimated to be required for debt service on general obligation debt is provided by the tax along with the interest earned in the debt service fund.

#### **9. Leases**

The City is a lessee for noncancellable leases of equipment. The City would recognize a lease liability and an intangible, right-to-use asset (the "lease asset") in the government-wide financial statements. The City's leases are immaterial and not recognized as a lease liability or a lease asset.

**For the Year Ended September 30, 2022**

### **10. Net Position Flow Assumption**

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

### **11. Fund Balance Flow Assumptions**

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

### **12. Fund Balance Policies**

Fund balances of governmental funds are reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The City itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

Amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact are classified as nonspendable fund balance. Amounts that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions are classified as restricted.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the City that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as committed. The City Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The City will strive to achieve and maintain an unassigned fund balance in the general fund equal to at least 120 days of budgeted operating expenditures. If the unassigned fund balance falls below the target or has a deficiency, the City will seek to reduce expenditures prior to increasing revenues in order to replenish the fund balance within a reasonable time frame not to exceed three years.

## **NOTES TO FINANCIAL STATEMENTS (Continued)**

**For the Year Ended September 30, 2022**

### **13. Estimates**

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### **14. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's fiduciary net position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### **15. Other Postemployment Benefits**

The City participates in a single-employer, unfunded, defined benefit group-term life insurance plan operated by TMRS known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. Benefit payments are treated as being equal to the City's yearly contributions for retirees.

## **G. Revenues and Expenditures/Expenses**

### **1. Program Revenues**

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

### **2. Property Taxes**

Property taxes are levied during September of each year, are due upon receipt of the City's tax bill, and become delinquent on February 1 of the following year. The City's tax lien exists from January 1 (the assessment date) each year until the taxes are paid. The penalties and interest accumulate on the unpaid accounts until July 1, at which time the delinquent accounts are turned over to the tax attorney for legal action.

### **3. Proprietary Funds Operating and Nonoperating Revenues and Expenses**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating

revenues of the enterprise fund and capital replacement fund are charges to customers for sales and services. The enterprise fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund and capital replacement fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. The original budget is adopted by the City Council prior to the beginning of the year. The legal level of control as defined by the City in the approved budget is the department level.

## III. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

### A. Deposits and Investments

As of September 30, 2022, the City had the following investments:

| Investment Type                     | Fair Value           | Weighted Average Maturity (Years) |
|-------------------------------------|----------------------|-----------------------------------|
| External investment pools           | \$ 23,385,471        | 0.13                              |
| Certificates of deposit             | 217,863              | 0.21                              |
| <b>Total Investments</b>            | <b>\$ 23,603,334</b> |                                   |
| Portfolio Weighted Average Maturity |                      | 0.15                              |

*Interest rate risk.* In accordance with its investment policy, the City manages its exposure to declines in fair values by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations and invest operating funds primarily in short-term securities.

*Credit risk.* State law and the City's investment policy limits investments to obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than "A" or its equivalent. Further, commercial paper must be rated not less than "A-1" or "P-1" or an equivalent rating by at least two nationally recognized credit rating agencies. As of year end, the City's investments in investment pools were rated "AAAm" by Standard & Poor's. All other investments are guaranteed (either express or implied) by the full faith and credit of the U.S. government or the issuing U.S. agency.

*Custodial credit risk – deposits.* In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's investment policy requires funds on deposit at the depository bank to be collateralized by securities with a collective market value of at least 102 percent. As of September 30, 2022, the market values of pledged securities and FDIC coverage exceeded the City's bank balances.

### TexPool

TexPool was established as a trust company with the Treasurer of the State as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters.

## NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended September 30, 2022

Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rates TexPool 'AAAm'. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review.

TexPool is an external investment pool measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, TexPool must transact at a stable net asset value per share and maintain certain maturity, quality, and diversification requirements within TexPool. TexPool transacts at a net asset value of \$1.00 per share, has weighted average maturities of 60 days or less, and weighted average lives of 120 days or less. Investments held are highly rated by nationally recognized rating organizations, have no more than 5% of portfolio with one issuer (excluding U.S. government securities), and can meet reasonably foreseeable redemptions. TexPool has a redemption notice period of one day and may redeem daily. TexPool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium, or national state of emergency that affects TexPool's liquidity.

### Texas CLASS

The Texas Cooperative Liquid Assets Securities System Trust (CLASS) is a public funds investment pool under Section 2256.016 of the Public Funds Investment Act, Texas Government Code, as amended. CLASS is created under an amended and restated trust agreement, dated as of December 14, 2011 (the "Agreement"), among certain Texas governmental entities investing in CLASS (the "Participants"), with Cutwater Investor Services Corporation as program administrator and Wells Fargo Bank Texas, NA as custodian. CLASS is not SEC registered and is not subject to regulation by the State. Under the Agreement, however, CLASS is administered and supervised by a seven-member board of trustees (the "Board"), whose members are investment officers of the Participants, elected by the Participants for overlapping two-year terms. In the Agreement and by resolution of the Board, CLASS has contracted with Cutwater Investors Service Corporation to provide for the investment and management of the public funds of CLASS. Separate financial statements for CLASS may be obtained from CLASS' website at [www.texasclass.com](http://www.texasclass.com).

## NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended September 30, 2022

### Federal Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed, or are not performed correctly, a substantial liability to the City could result. The City periodically engages an arbitrage consultant to perform the calculations in accordance with the rules and regulations of the IRS.

**For the Year Ended September 30, 2022**

### **B. Contingent Liabilities**

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures that may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other economic and social factors. No claim liabilities are reported at year end.

### **C. Pension Plan**

#### **Texas Municipal Retirement System**

##### **Plan Description**

The City participates as one of 901 plans in the defined benefit cash-balance plan administered by TMRS. TMRS is a statewide public retirement plan created by the State and administered in accordance with the Texas Government Code, Title 8, Subtitle G (the "TMRS Act") as an agent multiple-employer retirement system for municipal employees of Texas participating cities. The TMRS Act places the general administration and management of TMRS with a six-member, Governor-appointed Board of Trustees (the "Board"); however, TMRS does not receive any funding from the State. TMRS issues a publicly available annual comprehensive financial report that can be obtained at [www.tmrs.com](http://www.tmrs.com).

All eligible employees of the City are required to participate in TMRS.

##### **Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the member's benefit is calculated based on the sum of the member's contributions, with interest, and the City-financed monetary credits, with interest, and their age at retirement and other actuarial factors. The retiring member may select one of seven monthly payment options. Members may also choose to receive a portion of their benefit as a lump sum distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member contributions and interest.

### Contributions

Member contribution rates in TMRS are either 5%, 6%, or 7% of the member's total compensation, and the City-matching ratios are either 1:1 (1 to 1), 1.5:1 (1½ to 1), or 2:1 (2 to 1), both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal actuarial cost method. The City's contribution rate is based on the liabilities created from the benefit plan options selected by the City and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 6.67% and 6.33% in calendar years 2021 and 2022, respectively. The City's contributions to TMRS for the fiscal year ended September 30, 2022 were \$225,186 and were equal to the required contributions.

### Net Pension Liability (Asset)

The City's Net Pension Liability/(Asset) (NPL/(A)) was measured as of December 31, 2021 and the Total Pension Liability (TPL) used to calculate the NPL/(A) was determined by an actuarial valuation as of that date.

### Actuarial Assumptions

The TPL in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

|                           |                                                                    |

## NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended September 30, 2022

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-Distinct 2019 Municipal Retirees of Texas mortality tables. The rates for active members, healthy retirees, and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees are used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied for males and females, respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for the annuity purchase rates is based on the mortality experience investigation study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation, as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of real rates of return for each major asset class are summarized in the following table:

| <b>Assets Class</b>              | <b>Target Allocation</b> | <b>Long-Term<br/>Expected Real Rate of<br/>Return ( Arithmetic)</b> |

### Discount Rate

The discount rate used to measure the TPL was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that member and employer contributions will be made at the rates specified in statute. Based on that assumption, TMRS's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

### D. Other Postemployment Benefits

#### TMRS Supplemental Death Benefits

##### Plan Description

The City participates in an OPEB plan administered by TMRS. TMRS administers the defined benefit group-term life insurance plan known as the SDBF. This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. Employers may terminate coverage under, and discontinue participation in, the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The member city contributes to the SDBF at a contractually required rate (based on the covered payroll of employee members) as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). As such, the SDBF is considered to be a single-employer unfunded OPEB defined benefit plan with benefit payments treated as being equal to the employer's yearly contributions for retirees.

The contributions to the SDBF are pooled for investment purposes with those of the Pension Trust Fund (PTF). The SDBF's funding policy assures that adequate resources are available to meet all

death benefit payments for the upcoming year. The SDBF is a pay-as-you-go fund, and any excess contributions are available for future SDBF benefits.

### Benefits

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an OPEB and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan (i.e., no assets are accumulated).

Participation in the SDBF as of December 31, 2021 is summarized below:

|                                                                  |           |

\*The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2021.

The actuarial assumptions used in the December 31, 2021 valuation were based on the results of an actuarial experience study for the period December 31, 2014 to December 31, 2018. Due to the higher mortality rates associated with the global pandemic, the TMRS Board adopted changes to the assumptions and methodology used for calculating 2023 rates as determined in the December 31, 2021 actuarial valuation.

(1) Note: There is no debt limit established by law; therefore, the limit is governed by the City's ability to levy and collect taxes to service the debt. The Attorney General of the State of Texas will not approve more than \$1.00 of the tax rate for debt service. The City's maximum legal tax rate is \$2.50 per \$100 valuation assessed at 100% of the market value. Ten percent (10%) of the assessed value has been applied as a "rule of thumb" procedure.

## Required Auditor Disclosure Letter Conclusion of Audit

March 17, 2023

To the Honorable Mayor and  
City Council Members of the  
City of Spring Valley Village, Texas:

We have audited the financial statements of the governmental activities, the business-type activities, and each major fund of the City of Spring Valley Village, Texas (the “City”) for the year ended September 30, 2022. Professional standards require that we provide the City Council (the “governing body”) with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter previously sent at the start of the annual audit. Professional standards also require that we communicate to the governing body the following information related to our audit.

### I. Significant Audit Findings

#### 1. *Qualitative Aspects of Accounting Practices*

- A. Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in the notes to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.
- B. Accounting estimates are an integral part of the financial statements prepared by management and are based on management’s knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management’s estimate of the useful lives of capital assets is based on industry standards relating to capital assets. We evaluated the key factors and assumptions used to develop the useful lives of capital assets in determining that they are reasonable in relation to the financial statements taken as a whole.

Estimates are used in the calculation of the pension liability and the required annual contribution. The Texas Municipal Retirement System (TMRS) hires a licensed actuary to make key assumptions and to perform calculations, as well as an independent auditor to review those assumptions and calculations. We evaluated the reasonableness of the employee data provided by the City to TMRS.

Estimates are used in the calculation of the health care liability for other postemployment benefits. The City hires a licensed actuary to perform the calculation. We evaluated the key factors and assumptions used to develop the liability in relation to the financial statements taken as a whole.

- C. The financial statement disclosures are neutral, consistent, and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of long-term debt in the financial statements is significant to financial statement users because it discloses the City's long-term financial obligations.

## *2. Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

## *3. Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. The attached schedule summarizes both material and immaterial misstatements detected as a result of our audit procedures. Management has corrected all misstatements.

## *4. Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

## *5. Management Representations*

We have requested certain representations from management that are included in the management representation letter dated March 17, 2023.

## *6. Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the City's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

*7. Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

*8. Changes in Risk Assessment*

No changes in risk assessment were noted in the completion of the audit as previously communicated in our planning letter.

II. Other Matters

We applied certain limited procedures to the Required Supplementary Information (RSI), as identified on the table of contents, which supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information, as identified on the table of contents, which accompanies the financial statements but is not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

III. Restrictions on Use

This information is intended solely for the use of the Mayor, City Council, and management and is not intended to be, and should not be, used by anyone other than these specified parties.

City Council Members of the  
City of Spring Valley Village, Texas:

The American Institute of Certified Public Accountants Statement on Auditing Standards No. 115, *Communicating Internal Control Related Matters Identified in an Audit* (SAS 115), provides guidance to auditors on communicating internal control matters to management and the governing body, board of directors, or equivalent body.

It is important to note when reviewing findings reported within this letter that classification of the findings is based on the definitions required by SAS 115 as further discussed below. Please note that these classifications are based on the potential impact to the financial statements, not necessarily the likelihood of actual loss to the City. Accordingly, the City's assessment of the "significance" or ranking of severity will likely be substantially different based on a number of factors including, but not limited to, its assessment of risk and the cost benefit of making the change.

Our report is as follows:

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, and each major fund of the City of Spring Valley Village, Texas (the "City") as of and for the year ended September 30, 2022, in accordance with auditing standards generally accepted in the United States of America, we considered the City's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a significant deficiency. There is also a new pronouncement we want to bring to your attention.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our findings and additional comments are as follows:

## ***CURRENT YEAR MATTERS***

### ***Significant Deficiency:***

#### **2022.001 OVERTIME**

##### **Background**

In response to the Covid-19 pandemic, most organizations around the world made changes to their operations, which often impacted the normal internal control processes. To address the additional demands related to changes in operations during Covid-19, City Council approved a new policy to allow certain exempt (salaried) employees to receive overtime pay, which included the Police Chief.

In April 2022, concerns were expressed about the Police Chief's overtime compensation received based on the new policy. The Police Chief's overtime compensation for the fiscal years 2019, 2020, 2021, and 2022 were \$0, \$128,223, \$152,903, and \$3,952, respectively. At the department level, the overall budgets for overtime within the Police Department were within amounts established by City Council for each fiscal year. However, the Police Chief's hours were sufficiently high in 2020 and 2021 to question if the hours were plausible. Concerns were also expressed about the City's oversight of the approval and monitoring processes related to the Police Chief's overtime, as disparities in the understanding of the amounts came to light.

Several years prior to the new overtime policy, the City implemented a new organizational structure whereas the new position of Police Commissioner was established to oversee the Police Chief and Police Department and those duties were shifted from the City Administrator.

The City subsequently engaged a firm to conduct an independent review of the Police Chief's overtime and related issues. The results of that review have not been made available which will likely result in additional information and more specific findings and recommendations.

##### **Finding**

Within the scope of our audit, we considered the concerns in conjunction with our risk assessment process and planning of our audit of the financial statements for the fiscal year ended September 30, 2022. We performed inquiries to obtain further understanding of events and reviewed limited information for the purposes noted above. For the 2022 fiscal year, overtime compensation was \$3,952 for the Police Chief. We noted there was no evidence of approval of the Police Chief's overtime hours for 2022. Based on concerns subsequently noted on the disparity in knowledge about the information, it did not appear that the City was performing procedures related to oversight of the Police Chief's overtime hours.

The combination of the new overtime policy combined with the change in organizational structure with the Police Commissioner appeared to result in a void in internal control related to the approval of the Police Chief's overtime. Additionally, there appeared to be a void in the process of monitoring overtime compensation.

##### **Recommendations**

Upon post examination of these events, it appears, in connection with the new policy allowing the Police Chief to receive overtime, the City should have specifically addressed procedures for the Police

Commissioner or other official to approve overtime hours and provide oversight in how extended work hours were being expended. At quarter end and year end, the City's Finance Director, City Administrator, and Police Commissioner should review the summary reports for reasonableness and consistency.

***Future Matter That May Subsequently Warrant Attention:***

**2022.002 IMPLEMENTATION OF GASB STANDARD NO. 96 – SBITAs**

**Background**

Governmental Accounting Standards Board (GASB) Statement 96, *Subscription-Based Information Technology Arrangement* (SBITAs), is effective for the year ending September 30, 2023 and, accordingly, the City has less than one year to implement GASB 96. GASB 96 defines a SBITA as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. GASB 96 essentially requires that all SBITAs should be reported on the balance sheet as a right-to-use subscription asset – an intangible asset – and a corresponding subscription liability, much like GASB 87, *Leases*, accounting for lease transactions. Unlike many new accounting standards, GASB 96 may require preplanning and changes in the way the City does business. Implementation of GASB 96 will generally require centralized document management; in-depth review of SBITA documents; recording and tracking of multiple data points per agreement, which may necessitate new software based on the volume of arrangements; and development of new controls, reconciliations, and policies and procedures.

**Recommendation**

The City needs to begin making initial assessments immediately to determine the lead time and resources needed. The City needs to identify all SBITAs in which the term initially exceeded 12 months. Based on the aggregate value of SBITAs and materiality, the City should determine a cutoff for exclusion of insignificant arrangements. If the City's number of SBITAs approaches 10, it may be beneficial for the City to procure and implement software to aid in the task. The City should establish the goal of being fully implemented 60 days prior to year end to provide for a sufficient buffer to safeguard against delay in issuing the City's September 30, 2023 financial statements.

This communication is intended solely for the information and use of management, City Council, and others within the City, and is not intended to be, and should not be, used by anyone other than these specified parties.

We would like to thank the City Council and the City's management for their cooperation during the course of our audit. Please feel free to contact us at your convenience to discuss this report or any other concerns that you may have.

The second letter was for informational purposes regarding CenterPoint Energy over refunding based on excess deferred income taxes resulting from the Tax Cuts and Jobs Act of 2017. The total refund CenterPoint Energy issued was \$17,974,061 to customers in the Houston and Texas Coast Divisions; however, the amount that it should have refunded was \$17,763,968, a difference of \$210,093. CenterPoint will be addressing this difference in their next rate case. Again, this letter is provided to City Council for informational purposes and no action is needed on this item.

Re: CenterPoint Energy 2023 Annual GRIP Adjustment for the Houston Division

Dear Madam or Sir:

CenterPoint Energy Resources Corp., d/b/a CenterPoint Energy Entex and CenterPoint Energy Texas Gas ("CenterPoint" or the "Company"), files the tariffs and supporting documents, in electronic form, with the City of Spring Valley Village ("City") consistent with Section 7.7101 of the Railroad Commission of Texas ("Commission") Gas Services Division Rules and Section 104.301 of the Texas Utilities Code to establish the annual gas reliability infrastructure program ("GRIP") interim rate adjustment ("IRA") for the Company's Houston Division, which includes the City. The proposed IRA will affect rates for natural gas service customers located in the City. Simultaneously with this filing, CenterPoint makes the same GRIP filing with the Commission for customers located in the City's environs and cities of the Houston Division that have ceded original jurisdiction to the Commission.

CenterPoint consistently supplies its customers in the Houston Division with safe and dependable natural gas service by prudently investing in additions and upgrades to its delivery system. The Company will continue to prudently invest in its infrastructure in order to improve its natural gas service to its customers and to anticipate and meet their needs under all operating conditions. The GRIP program enables a gas utility such as CenterPoint to begin recovery of its incremental capital investment in the system, subject to a prudence review in its next rate case. This reduces regulatory lag and incentivizes needed investment. Consistent with Section 104.301 of the Texas Utilities Code and Commission precedent, the City's review of this GRIP filing is limited to a ministerial review to ensure compliance with the GRIP statute.

Pursuant to applicable law, the proposed IRA will become effective on May 1, 2023, unless the City suspends that date for a period of no longer than forty-five (45) days. The approved IRA will be applied to the monthly customer charge and will remain in effect until superseded by the earlier of (1) the effective date of the Company's next annual GRIP adjustment for the Houston Division; or (2) the issuance of a final order in a rate setting proceeding for the Houston Division.

As detailed in the attached schedules and supporting material, the Company invested \$315,511,195 in its Houston Division in calendar year 2022 and the applicable IRA is:

| <b>Rate Schedule</b>                                                             | <b>Current Customer Charge</b>        | <b>Proposed 2023 Interim Rate Adjustment<sup>1</sup></b> | <b>Adjusted Charge</b>                | <b>Increase Per Bill</b>             |

Along with and in support of the proposed IRA, CenterPoint includes the following:

- (a) An earnings monitoring report showing the Company's earnings for the Houston Division during the 2022 calendar year (under the "Earnings Monitoring Report" section of the enclosed filing).
- (b) An Interim Rate Adjustment Application containing accounting schedules and project reports for the GRIP Adjustment Period including a description of (i) the projects undertaken during the GRIP Adjustment Period (ii) the investment to provide utility service in the Houston Division, which were both completed and placed in service during the GRIP Adjustment Period, (iii) the Company's prior utility investments in the Houston Division that were either retired or abandoned during the GRIP Adjustment Period, and (iv) the cost, need and customers benefited by those investments and retirements located in IRAs 12, 13, 14 and 15 which are voluminous and are being provided in electronic form only.
- (c) The Company's calculations of the GRIP Adjustment amount to go into effect on the later of the Planned Effective Date or the end of any suspension

<sup>1</sup> On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "TCJA") was signed into law. The TCJA reduced the federal corporate income tax rate from 35% to 21%. The Company has calculated the GRIP Adjustment using the 35% federal corporate income tax rate approved in GUD No. 10567. The Company has also calculated and is seeking approval of the GRIP Adjustment using the 21% federal corporate income tax rate under the Tax Cuts and Jobs Act of 2017. The Proposed 2023 Interim Rate Adjustment in the table above has been calculated using the reduced corporate income tax rate of 21%.

period imposed (under the "Interim Rate Adjustment Application" section of the enclosed filing). The Company has calculated the GRIP Adjustment using the 35% federal corporate income tax rate approved in GUD No. 10567. The Company has also calculated and is seeking approval of the GRIP Adjustment using the 21% federal corporate income tax rate under the Tax Cuts and Jobs Act of 2017.

(d) Affidavits by Kara Gostenhofer Ryan, Kimberly Middleton and Tal R. Centers, Jr. (under the "Affidavits" section of the enclosed filing).

- Ms. Ryan's affidavit verifies (i) that the Houston Division's books and records are kept in accordance with the rules of the Commission and (ii) that the reports enclosed accurately reflect the Houston Division's books and records related to the information in those reports.
- Ms. Middleton's affidavit verifies the notice of the GRIP filing through customer bill inserts.
- Mr. Centers' affidavit concerns the reimbursement of relocation expenses.

In addition, the source documentation and workpapers supporting the data and calculations contained in the foregoing reports is maintained in CenterPoint's electronic databases which are available for review. To schedule an opportunity to review the electronic databases or any hard copy project files related to the new investment or retirements, please contact me at (713) 207-5946.

Notice of this proceeding will be provided to affected customers in the Houston Division by bill insert or by separate mailing within 45 days after the date of this filing in accordance with the applicable law.

Please accept for filing the above-mentioned tariffs, filing package and enclosures and return the enclosed copy of this letter with your file mark thereon to acknowledge such filings for our records. Instead of a binder with a hard copy of the filing, the Company has provided the equivalent in electronic form in the folder called Electronic Copy of Filing.

Although only the incorporated tariffs are applicable to the City, the Company has also included in its filing package both incorporated and unincorporated tariffs.

If the City takes any action regarding this filing, please send signed documents, such as, ordinances, resolutions and minutes to the following address:

Treatment of over refunded amounts along with any unprotected balance will be proposed in the next rate case.

Because this filing is a compliance filing associated with Rate Schedule No. TCJA-HOU/TXC, no action is necessary.
